Number of Volunteers:

Number of Attendees:

Total (*Attendees + Volunteers*):

Items brought IN:

Items Fixed:

Items Not-Fixed:

Items Fixable:

Items Made:

Items PAT Tested:

Donations:

Volunteered Hours*:

In-kind support:

Sponsors:

Paper feedbacks filled in:

Item	Fault (Brief description)	Status	Cost to buy NEW** (or get fixed by a professional***)
Total money saved			

Status:

FIXED

FIXABLE = Fixable but not enough time // need spare parts

NOT FIXABLE

NET= Not enough time to get diagnosed

*Estimated hours of Admin volunteering/Hosting Volunteering/Fixing volunteering/Other. To calculate the real cost of an event multiply the hours volunteered times £10 (living wage)

**Search on Amazon/Ebay/Online markets for same or similar item or estimate price of getting it fixed by professionals

***We estimate £20/hour for a professional fix

****Fixables account for £10 since the attendee gets feedback and it's likely to be fixed at the following event or elsewhere.

More Outcomes (Fixometer):

Waste prevented:

CO2 emissions prevented:

Notes:

Lessons into actions:
